INOVAÇÃO, DESENHO E TECNOLOGIA

Alukler é a primeira fábrica de extrusão de alumínio do Paraguai, uma das mais modernas da América do Sul para fabricação de perfis de alumínio utilizados em diversos segmentos como, construção civil, indústria moveleira, decoração, publicidade entre muitos outros.

Com uma fábrica eletrointensiva, máquinas de última geração e processos industriais de vanguarda que possibilitam otimizar tempos de produção, conquistando uma excelente qualidade e sobretudo oportunidades comerciais.

Nuestros Procesos

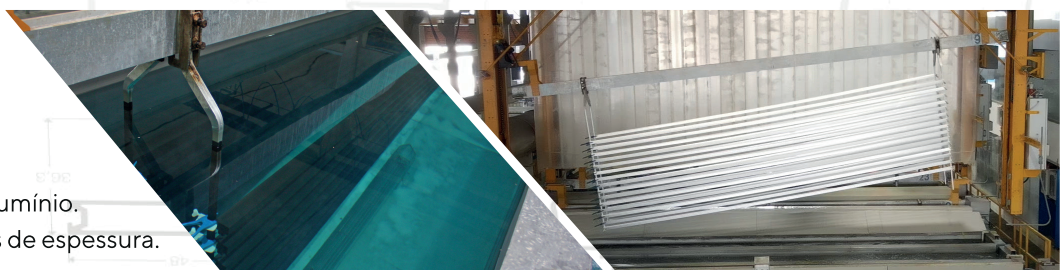

EXTRUSÃO

- Matéria prima: Primeira liga de alumínio fundido 6073.
- Linha de extrusão automática de 7"/1800 T de origem italiana.
- Refrigeração a ar.
- Temperado categoria T-5.
- Laboratório de matrizes com mais de 800 matrizes.
- Matrizes de alto desempenho com nitretação a gás.

ANODIZADO

- Boa resistência a corrosão.
- Resistência a materiais abrasivos.
- Maior durabilidade da superfície.
- Mantém o aspecto metálico do alumínio.
- Camada anódica de 5 a 20 micras de espessura.

PINTURA ELETROSTÁTICA A PÓ

- Excelente resistência a corrosão.
- Permanência da cor e brilho.
- Vida útil de até 25 anos.
- Alta resistência ao amarelamento.
- Certificada com norma europeia QUALICOAT.
- Tonalidades intensas, nítidas e sem aparência plástica.
- Facilidade ao lavar e reparações superficiais.
- Maior elasticidade e flexibilidade para desenhos com perfis curvados.

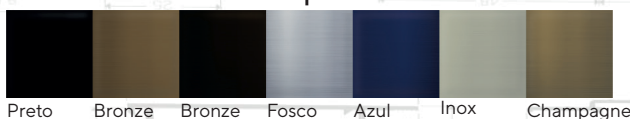

EFEITO MADEIRA

- Pintura pó sobre pó.
- Efeito de veios realista ao toque.
- Para aplicação interior e exterior.
- Aplicável a todas as linhas de esquadria de alumínio.
- Maior durabilidade e resistência à corrosão.
- Não perde brilho e cor.
- Não requer manutenção como a madeira.

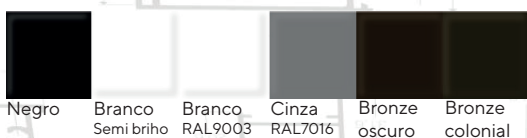

15 cores, 39 possibilidades

Este documento foi elaborado para facilitar o entendimento, todos os perfis deste catálogo estão em escala real (1:1), as medidas estão em milímetros (mm) exceto aquelas especificadas, como: "Momento de inércia" ou "Resistência de momento".

Este catálogo não inclui acessórios ou nós para fabricar as várias tipologias que cada linha apresenta. Se desejar ter esta informação, consulte o catálogo específico para cada linha.

[illegible]

Um grupo de empresas líderes dedicadas à inovação em soluções de construção com padrões de qualidade europeus.

Alukler nasceu em 2013 na cidade de Villeta, Paraguai, com uma infraestrutura de mais de 7 mil m², com máquinas europeias e automatizadas de última geração, permitindo um acabamento de excelente qualidade, evoluindo a indústria de alumínio na região.

A Vilux nasceu na cidade de Encarnación em 1976 como uma empresa familiar, hoje é a maior processadora de vidro do Paraguai e líder no mercado nacional com sua marca VILUX e no fornecimento de soluções construtivas inovadoras com padrões de qualidade europeus.

Possui 4 operações em pontos estratégicos do país: Fernando de la Mora, Encarnación, Minga Guazú e Pedro Juan Caballero, onde está localizado o maior forno de têmpera da região.

Transportadora TCC, empresa responsável pelo transporte de chapas de vidro, perfis de alumínio e materiais de construção para o exterior. A TCC possui uma frota de mais de 50 caminhões que prestam um serviço logístico inigualável.

A Divetro é a empresa responsável pelos investimentos imobiliários, manutenção da frota de veículos e maquinário do Grupo Cosa.
